

CIVIL WAR WEEKEND AT LIENDO PLANTATION

CODE OF CONDUCT AND SAFETY GUIDELINES

Thank you for registering for Civil War Weekend at Liendo Plantation! We open our gates each year to host a living history weekend for the enjoyment of reenactors and spectators alike. To maintain a safe environment and ensure that your weekend is as enjoyable as possible, we have a set of rules for participation. It is mandatory for ALL reenactors to read these rules, in their entirety, and comply to them while on Liendo property.

1. ALL reenactors MUST stop at the registration tent to check in upon arrival.
2. Beginning Friday morning, the main road is closed to vehicle traffic during spectator hours (Fri 9-4, Sat 9-5, Sun 9-4). Access to Reenactor parking will be via Reenactor Road ONLY. In the event that Reenactor Rd. becomes impassable, an alternate plan will be implemented by event management.
3. Vehicles must be out of camps by 8am Friday morning and remain out of camps until the event closes at 4pm on Sunday. No moving vehicles into camp overnight, no loading up before the event closes on Sunday.
4. Any vehicle that gets stuck, contact event staff for assistance.
5. Restrooms will remain locked during spectator hours and open for reenactor use after hours. Although we are aware of the inconvenience of using portable restrooms for ladies in hoop skirts, we are on a septic system and our restrooms cannot handle the capacity of the spectators. Some special arrangements can be made with event staff for use of the restrooms during event hours. However, the restrooms in the Liendo home will NOT be available for use by spectators or reenactors.
6. Dogs are welcome at Liendo but, please, be considerate of your fellow reenactors. Manage your dog so as not to disturb others and always clean up after your dog.
7. **There will be on site medics for injuries and illnesses. Please use them and heed their suggestions. Any injuries shall be reported to the reenactor coordinator and the event coordinator. No exceptions.**
8. Reenactors are forbidden to enter the pyrotechnical area on the battlefield. This area will be clearly marked to avoid any confusion.
9. Mounted units must assure that their riders are competent and capable of handling their horses.
10. No horses on Sutler Row.
11. Any horse brought to the event MUST provide proof of a current Coggins test.
12. All artillery must read and comply with the associated Artillery Safety Rules.
